
Testimonials from Our Students

I just wanted you to know that even though I have been in the field as an Executive Protection Agent for several years, I have rarely worked as part of a team that consisted of more than 2 Agents. With the training that I received from your 3 day course I am now equipped with the knowledge to operate in a team of 3 or more EP Agents at any given time. Your 3 day course was intense and very informative. By way of your presentation during the training allowed for me to refresh my knowledge regarding how to be a good "Executive Protection Agent." I look forward to your next training course.- **Phil EPA (Executive Protection Training Class)**

"I want to thank you for the spectacular learning experience that I received during your intense 3-day EPA course. Your professionalism, your respect for the student, and your command of the subject matter are genuine and simply magnificent. I must say that you are successful in your teaching methodology with respect to creating a comprehensive 3-day course which combined practical industry application and theory. After I completed your course I was confident enough to state to anyone that "I am an EPA." Your ability to teach specific techniques related to threat assessment, advance security, and physical protection detail intertwined with driving home the concept and importance of shifting the mindset from a defensive reactive state to the use of countermeasures/proactive state of mind was simply amazing. Indeed, your course was so well put together that not only did I learn new concepts and how to implement them but some of my personal vulnerabilities were exposed and therefore indentified so that I may humbly improve on my weaknesses. Your EPA Course Simply Rocks!" - **Mike EPA (Executive Protection Training Class)**

Executive Protection Training

At ASI Consultants & Associates our Executive Protection & Bodyguard Training is distinctly different than most executive protection and bodyguard training schools. We focus on each student individually as our instructor to student ratio is much smaller than many of our competitors. By limiting our enrollment to no more than ten (10) students per class, we can offer more of an individualized learning environment.

Who should attend?

The training is designed for entry-level novice looking to get started in the field or for those individuals who are looking for a refresher such as bodyguards (veteran or beginner), private individuals, security agencies, corporate security services, government organizations and more.

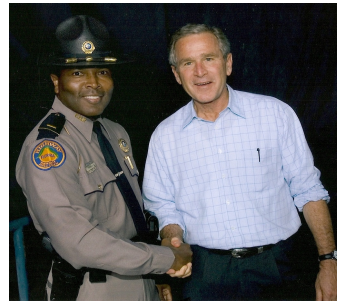

The three (3) day course will provide you with the basic knowledge and the "Art of Executive Protection & Bodyguard techniques" which are commonly used by State Police and Highway Patrol Dignitary Protection Units responsible for protecting Governor's and other State dignitaries as well as corporate and the private sectors.

Security Detail for Former Lt. Governor Frank Brogan

About the Instructors

Bill Ferrell III is our Certified Executive Protection Training Specialist and a former twenty-five (25) year veteran State Police District Shift Commander, former Lieutenant Governor Dignitary Protection Commander, former Dignitary Protection Commander for Florida State Insurance Commissioner Bill Nelson (currently Senator Bill Nelson) during Governor Jeb Bush's' 1999 Inauguration, a former Protective Advance Coordinator, former member of the Southern Governors' Security Detail, former Member of the Pope John Paul II & President Ronald Reagan Security Detail and the former Commander in charge of the U.S. President and Vice President Motorcade Support Unit for the State Police in South Florida.

Lenny Bogdanos is our Certified Executive Protection Training Specialist and a twenty-seven (27) year veteran in the martial arts. He currently holds a 6th degree belt in Tae Kwon Do, 6th degree belt in Hapkido, and a black belt in American Jiu-Jitsu. He was an alternate for the 1992 Greek Olympic and is a nationally ranked NAGA grappler. Mr. Bogdanos recently taught extensive close quarter hand to hand defense to the Pasco County (Florida) Swat Team and the Goodwater (Alabama) Swat Team. In 2009 he graduated from Trojan Securities International (TSI) and has recently successfully completed a three-day Executive Protection Training Course with ASI Consultants & Associates. Mr. Bogdanos is certified in advanced personal training, executive protection, security advanced techniques, client travel security, route reconnaissance, security site survey, force on force techniques and advanced counter action techniques.

What will I learn?
